Data has been added to the Ordnance Survey base map; all proprietary rights in such additional data are and shall remain the exclusive property of © London Power Networks plc or Eastern Power Networks plc each being a distribution licensee under section 6(1)(c) of the Electricity Act 1989 for the relevant distribution services area as that term is defined in such licensee's distribution licence. All rights in such data reserved.  
Plans generated by DigSAFE Pro™ software provided by LinesearchorGidg.

1. The position of the apparatus shown on this drawing is believed to be correct but the original landmarks may have been altered since the apparatus was installed.  
2. The exact position of the apparatus should be verified - use approved cable avoidance tools prior to excavation using suitable hand tools.  
3. It is essential that trial holes are carefully made avoiding the use of mechanical tools or picks until the exact location of all the cables have been determined.  
4. It must be assumed that there is a service cable into each property, lamp column and street sign, etc.  
5. All cables must be treated as being live unless proved otherwise by UK Power Networks.  
6. Digging near UK Power Networks plant and equipment. Do not use plans more than 3 months after the issue date for excavation purposes.  
7. Please be aware that electric cables/lines belonging to other owners of licensed electricity distribution systems may be present and it is your responsibility to identify their location.

1. UK Power Networks does not warrant that the information provided to you is correct. You rely upon it at your own risk.  
2. UK Power Networks has no liability to you in contract, in tort (including negligence), for breach of statutory duty or otherwise for any loss, damage, cost, claims, demands, or expenses that you or any third party may suffer or incur as a result of using the information provided whether for physical damage to property or for any economic loss (including without limitation loss of profit, loss of opportunity, loss of savings, loss of business, loss of goodwill, loss of use of any special or consequential loss or damage whatsoever).  
3. This plan has been provided to you on the basis of the terms of use set out in the covering letter that accompanies this plan. If you do not accept and/or do not understand the terms of use set out in the covering letter you must not use the plan and must return it to the person who provided it.  
4. You are responsible for the security of the information provided to you. It must not be given, sold or made available upon payment of a fee to a third party.

# APPLICATION FOR AN ELECTRICITY CONNECTION FOR WORKS OVER 70kVA

Completing this form accurately will help us process your application as quickly as possible. Please complete all sections relevant to your project.

For generation or storage applications please complete the ENA application form which can be found on our website [www.ukpowernetworks.co.uk](http://www.ukpowernetworks.co.uk) on our Distributed Generation pages.

## DID YOU KNOW YOU HAVE A CHOICE?

You can get a competitive quote from an Independent Connections Provider (ICP) for your electricity connection.

We can provide you with a complete connection service but you may also ask an ICP or an Independent Distribution Network Operator (IDNO) to undertake some of the works, these are known as the 'contestable works'.

Find out more on our website [www.ukpowernetworks.co.uk](http://www.ukpowernetworks.co.uk) under Competition in Connections.

Fields in red are mandatory

## Section A: Tell us your details

### A1. YOUR DETAILS

(This is the person making the application and this person will enter into an agreement with UK Power Networks and we can only discuss financial matters with them).

Title	First name	Last name
Company (if applicable)		UK Power Networks account number
House no. or Building name		Street name
Town/City	County	Postcode
Telephone	Mobile	
Email		

**Any questions?** Call **0800 029 4282** Mon - Fri, 8.30am - 5pm

### You can complete this form:

**Online:** Download or complete the form at [www.ukpowernetworks.co.uk](http://www.ukpowernetworks.co.uk) (navigate to help and advice)  
or Email it to [connections.gateway@ukpowernetworks.co.uk](mailto:connections.gateway@ukpowernetworks.co.uk)

**By post:** Connections Gateway, UK Power Networks, Metropolitan House, Darkes Lane, Potters Bar,  
Hertfordshire EN6 1AG

## A2. SITE ADDRESS (if different from your contact details above)

Is your site address different from the above?

Yes No

If yes:

House no. Building name

Street name

Town/City

County

Postcode

Have you had a connection offer for this site before?

Yes No

If yes, can you please provide the reference number

## A3. AUTHORISED REPRESENTATIVE'S DETAILS (If you would like us to talk to a third party regarding on-site works).

Title

First name

Last name

Company

Telephone

Mobile

Email

Tick if this person is the main contact

## Section B: Tell us which service you would like

Please indicate which type of service you need from us (please tick all that apply)

**Change of an existing connection (i.e. upgrade/downgrade)** Existing service capacity New capacity

Please complete sections; A, B, C, D and I. In addition please complete the following if applicable to your project; E G and H.

kVA/k

kVA/kW

Existing 13-digit Meter Point Administration Number MPAN:

(this can be found on your electricity bill and will start with 19, 10 or 12)

**New connection**

Please complete sections; A, B, C, D and I. In addition please complete the following if applicable to your project; E G and H.

Total number of connections required

**Temporary connection**

Please complete sections; A, B, C, D and I. In addition please complete the following if applicable to your project; E G and H.

Capacity required for the temporary connection

kVA

single phase

three phase

**Diversion work** (this is an alteration or diversion of electricity cables, overhead lines or substations)

Please complete sections; A, B, C, D, F and I. In addition please complete the following if applicable to your project; E and G.

**Nature of supply enquiry**

Please complete sections; A, B and H

**Intending to self-determine a Point of Connection – No Quotation required**

Please complete sections; A, B, C, D, and I.

Please indicate additional works associated with this project

**Disconnection**

Please provide MPAN(s)

**Unmetered connection** (e.g. Streetlights) Please provide details

Please use section H to provide additional information

## SECTION B: TELL US WHICH SERVICE YOU WOULD LIKE (continued)

TELL US WHAT TYPE OF QUOTATION WOULD YOU LIKE (Please select one)

### A Budget estimate

We will provide you with a budget estimate that sets out a typical price for the works that may be required. However this is based on a desktop assessment only without any site specific conditions being taken into account. It may vary considerably from a formal connection offer. It is not capable of acceptance and does not secure any network capacity. A budget estimate is provided free of charge.

### B Formal quotation

We will provide you with a connection offer that sets out the cost for UK Power Networks to complete all of the connection works and alternative options. This will include;

**Option A** – UK Power Networks carries out all of the requested ‘contestable’ and ‘non-contestable’ works required for your connection

**Option B** – UK Power Networks carries out all the ‘non-contestable’ work and the ‘contestable closing joint’. The ICP carries out all other requested ‘contestable’ work

**Option C** – UK Power Networks carries out the ‘non-contestable’ works only. The ICP carries out all of the works classified as ‘contestable’

### C if you only require a non-contestable connection offer

We can provide a connection offer for UK Power Networks only completing the non-contestable connection works, so that an ICP or IDNO can be appointed to undertake the design and construction of the contestable works.

When selecting this option please indicate if you are using;

i) an ICP (and that UK Power Networks will be required to adopt the completed work) please tick here

OR

ii) If you will be appointing an IDNO, please tick here

### D Self-determined point of connection (no quotation required)

All connection offers will be issued by email, if you would like a copy by post please tick here.

## Section C: Construction (Design and Management) (CDM) Regulations 2015

**Please confirm the appointment of any Principal Contractor and Principal Designer as required by the CDM Regs 2015.** (For guidance on CDM please go to [www.hse.gov.uk](http://www.hse.gov.uk))

Principal Contractor name

Company name

Address

Telephone

Postcode

## Section D: Tell us your site and load details

Depending on your project, there may be a requirement to install a substation on your site. Our design team will discuss this with you in more detail but it would be helpful at this stage if you could indicate a preferred location on a plan (explained in section H).

Please complete the section(s) which best match your project:

Is your site **Domestic**      Yes      No      and/or **Commercial/Industrial**      Yes      No

a) **DOMESTIC** – Please complete this table

Type of property (eg. house or flat)	No. of bedrooms	No. of properties	Load required per property
			kVA
			kVA
			kVA
			kVA
			kVA
Total requested capacity			kVA

b) **COMMERCIAL** – Please complete this table

Type of property (eg. office, industrial, warehouse unit)	No. of metering points	Load required per metering point
		kVA
		kVA
		kVA
		kVA
		kVA
Maximum power required (after diversity)		kVA

c) How will the property be heated      Gas      Electric      Other      CHP

If electric, please provide the space or water heating demand per property

d) How many meters do you need to connect?

e) Are landlord connections required?      Yes      No

How many landlord's connections are required?

Capacity for the landlord's connections

The landlord's connection is      single phase      three phase

f) Please confirm the total capacity requirement for the site kVA

g) When do you need your power connected? (Give an idea of your anticipated timescales)

Month

Year

## Section E: Tell us about any Motors or other disturbing loads

Some types of load can disturb our electricity network. Please provide details of any air conditioning, fuel or heat pumps, lifts, motors, refrigeration, welders or other industrial machinery. If the electrical characteristics are unknown please refer to the manufacturer or the equipment installer.

Please use the following conversions as a guide: 4 amps = 1 kilowatt or 1 kilowatt = 1.1kVA

Are there any motors or disturbing loads?      Yes      No (if yes please complete the table below)

Type of appliance (e.g. motor, welder, heat pump, wind turbine)	Rating of appliance	How often will the appliance be started in one hour?	Single or three phase?	Starting method (Star Delta, Direct On Line, Soft start)	Starting current
	kW				amps
	kW				amps
	kW				amps
	kW				amps
	kW				amps

## Section F: Tell us about your Diversion works

If applying for diversion work please provide a full description of the work that you propose to carry out.

- Please detail whether you require the diversion of electricity cables, overhead lines or substations.
- Please send us detailed plans of your works to allow us to identify the impact on our electricity assets.

What is the planned start date for your work?

# Section G: Tell us about any electric vehicle charging points

How many do you wish to install/connect? (If more than 1 please fill in the table below)

## Location of electric vehicle charging points

Address

Postcode

OS ref Easting

OS ref Northing

### Location description – please select one from the following:

- Trunk Road
- Motorway services
- Residential on-street
- Residential off-street
- Local commercial
- Supermarket/outlet car park
- Public car park
- Park & ride
- Train station
- Religious building
- Health
- Leisure
- Hotel/accommodation
- Work/business park/industrial
- Health Depot/fleet

### Is your charging point:

- Urban
- Suburban
- Rural

### Is your charging point:

- Smart enabled
- Co-located storage

Rating of electric vehicle charging point

Make/manufacturer name of electric vehicle charging point

### If installing more than 1, please fill in the table below

Address	Postcode	Easting	Northing	Location description	Rating (kW)	Make/manufacturer	Model
					kW		
					kW		
					kW		
					kW		
					kW		

Before you submit your application, please ensure that you have enclosed the following information which will allow us to process your application as quickly as possible:

1. Plan showing the location of each connection
2. Plan showing the site layout (if applicable)
- (Examples are shown on the last page)

## Section H: Tell us any additional information

Please provide any additional information that you think will help us process your application.

E.g. any details of land ownership, planning constraints, site hazards or areas of contamination.

## Section I: Check you've provided everything

Before you submit your application, please ensure that you have enclosed the following information which will allow us to process your application as quickly as possible:

1. Plan showing the site location
2. Plan showing the site layout

Examples are shown on the last page of this document

**THE APPLICANT MUST SIGN THIS SECTION (THE PERSON NAMED IN SECTION A1)**

Signature of applicant

Date

Print name

Acting on behalf of company name

We are committed to protecting and respecting your privacy. The information you provide will not be used for marketing purposes but we work with two research organisations, Rant & Rave and Explain Research who may contact you for feedback about our service. Your feedback is shared with us and Ofgem, our regulator. We will not sell or pass on your information to any other third party for any purpose. For more information on how we will treat your personal data, please read our [privacy policy](#).

*Thank you for your application*

# Plan examples

## 1. PLAN SHOWING THE SITE LOCATION

### What is this?

A map showing us where your site is so we can accurately assess your requirements.

### What should the map show?

- the site location in relation to the surrounding area
- which roads are closest to the site
- the site boundary

### Where to find one

Location plans can be found by using street maps or via internet sites such as:

- Googlemaps
- Ordnance Survey
- Multimaps

## 2. PLAN SHOWING THE SITE LAYOUT

### What is this?

A scaled plan showing us the layout of the site and the ground floor layout of any buildings. Please make sure you provide us with an appropriate sized plan.

The size we require will depend on the size of your development but it should be no smaller than A3.

### Where to find one

If you have an architect working on your project, they will be able to provide this. If you haven't an architect please send a detailed location plan showing the details (below).

### What should the plan show?

- the layout of the development
- any footpaths, roads or access routes
- where you'd prefer the electricity cable entering the building
- your proposed duct and cable route
- any existing service routes (if known)
- where you'd like the electricity meter positioned (internal or external)
- the site boundary
- any buildings that will be demolished
- proposed location of any new street-lights

- depending on your project, there may be a requirement to install a substation on your site. Our design team will discuss this with you in more detail but it would be helpful at this stage if you could indicate a preferred location on a plan
- which outside wall will you be installing your meter box.

0845 070 9148

**Search address supplied:** 43 - 44 Gillender Street, Gillender Street, London, E14 6RN

Dear Sir / Madam

**An Asset Location Search is recommended when undertaking a site development.** It is essential to obtain information on the size and location of clean water and sewerage assets to safeguard against expensive damage and allow cost-effective service design.

The following records were searched in compiling this report: - the map of public sewers & the map of waterworks. Thames Water Utilities Ltd (TWUL) holds all of these.

This search provides maps showing the position, size of Thames Water assets close to the proposed development and also manhole cover and invert levels, where available.

Please note that none of the charges made for this report relate to the provision of Ordnance Survey mapping information. The replies contained in this letter are given following inspection of the public service records available to this company. No responsibility can be accepted for any error or omission in the replies.

You should be aware that the information contained on these plans is current only on the day that the plans are issued. The plans should only be used for the duration of the work that is being carried out at the present time. Under no circumstances should this data be copied or transmitted to parties other than those for whom the current work is being carried out.

Thames Water do update these service plans on a regular basis and failure to observe the above conditions could lead to damage arising to new or diverted services at a later date.

### Contact Us

If you have any further queries regarding this enquiry please feel free to contact a member of the team on 0845 070 9148, or use the address below:

Thames Water Utilities Ltd  
Property Searches  
PO Box 3189  
Slough  
SL1 4WW

Email: [searches@thameswater.co.uk](mailto:searches@thameswater.co.uk)

Web: [www.thameswater-propertysearches.co.uk](http://www.thameswater-propertysearches.co.uk)

### Waste Water Services

**Please provide a copy extract from the public sewer map.**

Enclosed is a map showing the approximate lines of our sewers. Our plans do not show sewer connections from individual properties or any sewers not owned by Thames Water unless specifically annotated otherwise. Records such as "private" pipework are in some cases available from the Building Control Department of the relevant Local Authority.

Where the Local Authority does not hold such plans it might be advisable to consult the property deeds for the site or contact neighbouring landowners.

This report relates only to sewerage apparatus of Thames Water Utilities Ltd, it does not disclose details of cables and or communications equipment that may be running through or around such apparatus.

The sewer level information contained in this response represents all of the level data available in our existing records. Should you require any further Information, please refer to the relevant section within the 'Further Contacts' page found later in this document.

For your guidance:

- The Company is not generally responsible for rivers, watercourses, ponds, culverts or highway drains. If any of these are shown on the copy extract they are shown for information only.
- Any private sewers or lateral drains which are indicated on the extract of the public sewer map as being subject to an agreement under Section 104 of the Water Industry Act 1991 are not an 'as constructed' record. It is recommended these details be checked with the developer.

### Clean Water Services

**Please provide a copy extract from the public water main map.**

Enclosed is a map showing the approximate positions of our water mains and associated apparatus. Please note that records are not kept of the positions of individual domestic supplies.

For your information, there will be a pressure of at least 10m head at the outside stop valve. If you would like to know the static pressure, please contact our Customer Centre on 0800 316 9800. The Customer Centre can also arrange for a full flow and pressure test to be carried out for a fee.

For your guidance:

- Assets other than vested water mains may be shown on the plan, for information only.
- If an extract of the public water main record is enclosed, this will show known public water mains in the vicinity of the property. It should be possible to estimate the likely length and route of any private water supply pipe connecting the property to the public water network.

### **Payment for this Search**

A charge will be added to your suppliers account.

### Further contacts:

#### Waste Water queries

Should you require verification of the invert levels of public sewers, by site measurement, you will need to approach the relevant Thames Water Area Network Office for permission to lift the appropriate covers. This permission will usually involve you completing a TWOSA form. For further information please contact our Customer Centre on Tel: 0845 920 0800. Alternatively, a survey can be arranged, for a fee, through our Customer Centre on the above number.

If you have any questions regarding sewer connections, budget estimates, diversions, building over issues or any other questions regarding operational issues please direct them to our service desk. Which can be contacted by writing to:

Developer Services (Waste Water)  
Thames Water  
Clearwater Court

The position of the apparatus shown on this plan is given without obligation and warranty, and the accuracy cannot be guaranteed. Service pipes are not shown but their presence should be anticipated. No liability of any kind whatsoever is accepted by Thames Water for any error or omission. The actual position of mains and services must be verified and established on site before any works are undertaken.		

# ALS Sewer Map Key

## Public Sewer Types (Operated & Maintained by Thames Water)

	<b>Foul:</b> A sewer designed to convey waste water from domestic and industrial sources to a treatment works.		Trunk Foul
	<b>Surface Water:</b> A sewer designed to convey surface water (e.g. rain water from roofs, yards and car parks) to rivers or watercourses.		Trunk Surface Water
	<b>Combined:</b> A sewer designed to convey both waste water and surface water from domestic and industrial sources to a treatment works.		Trunk Combined
	Storm Relief		Bio-solids (Sludge)
	Vent Pipe		Proposed Thames Water Foul Sewer
	Proposed Thames Surface Water Sewer		Foul Rising Main
	Gallery		Combined Rising Main
	Surface Water Rising Main		Proposed Thames Water Rising Main
	Sludge Rising Main		Vacuum

### Notes:

- 1) All levels associated with the plans are to Ordnance Datum Newlyn.
- 2) All measurements on the plans are metric.
- 3) Arrows (on gravity fed sewers) or flecks (on rising mains) indicate direction of flow.
- 4) Most private pipes are not shown on our plans, as in the past, this information has not been recorded.
- 5) 'na' or '0' on a manhole level indicates that data is unavailable.

## Sewer Fittings

A feature in a sewer that does not affect the flow in the pipe. Example: a vent is a fitting as the function of a vent is to release excess gas.

	Air Valve
	Dam Chase
	Fitting
	Meter
	Vent Column

## Operational Controls

A feature in a sewer that changes or diverts the flow in the sewer. Example: A hydrobrake limits the flow passing downstream.

	Control Valve
	Drop Pipe
	Ancillary
	Weir

## End Items

End symbols appear at the start or end of a sewer pipe. Examples: an Undefined End at the start of a sewer indicates that Thames Water has no knowledge of the position of the sewer upstream of that symbol, Outfall on a surface water sewer indicates that the pipe discharges into a stream or river.

	Outfall
	Undefined End
	Inlet

## Other Symbols

Symbols used on maps which do not fall under other general categories

	Public/Private Pumping Station
	Change of characteristic indicator (C.O.C.I.)
	Invert Level
	Summit

### Areas

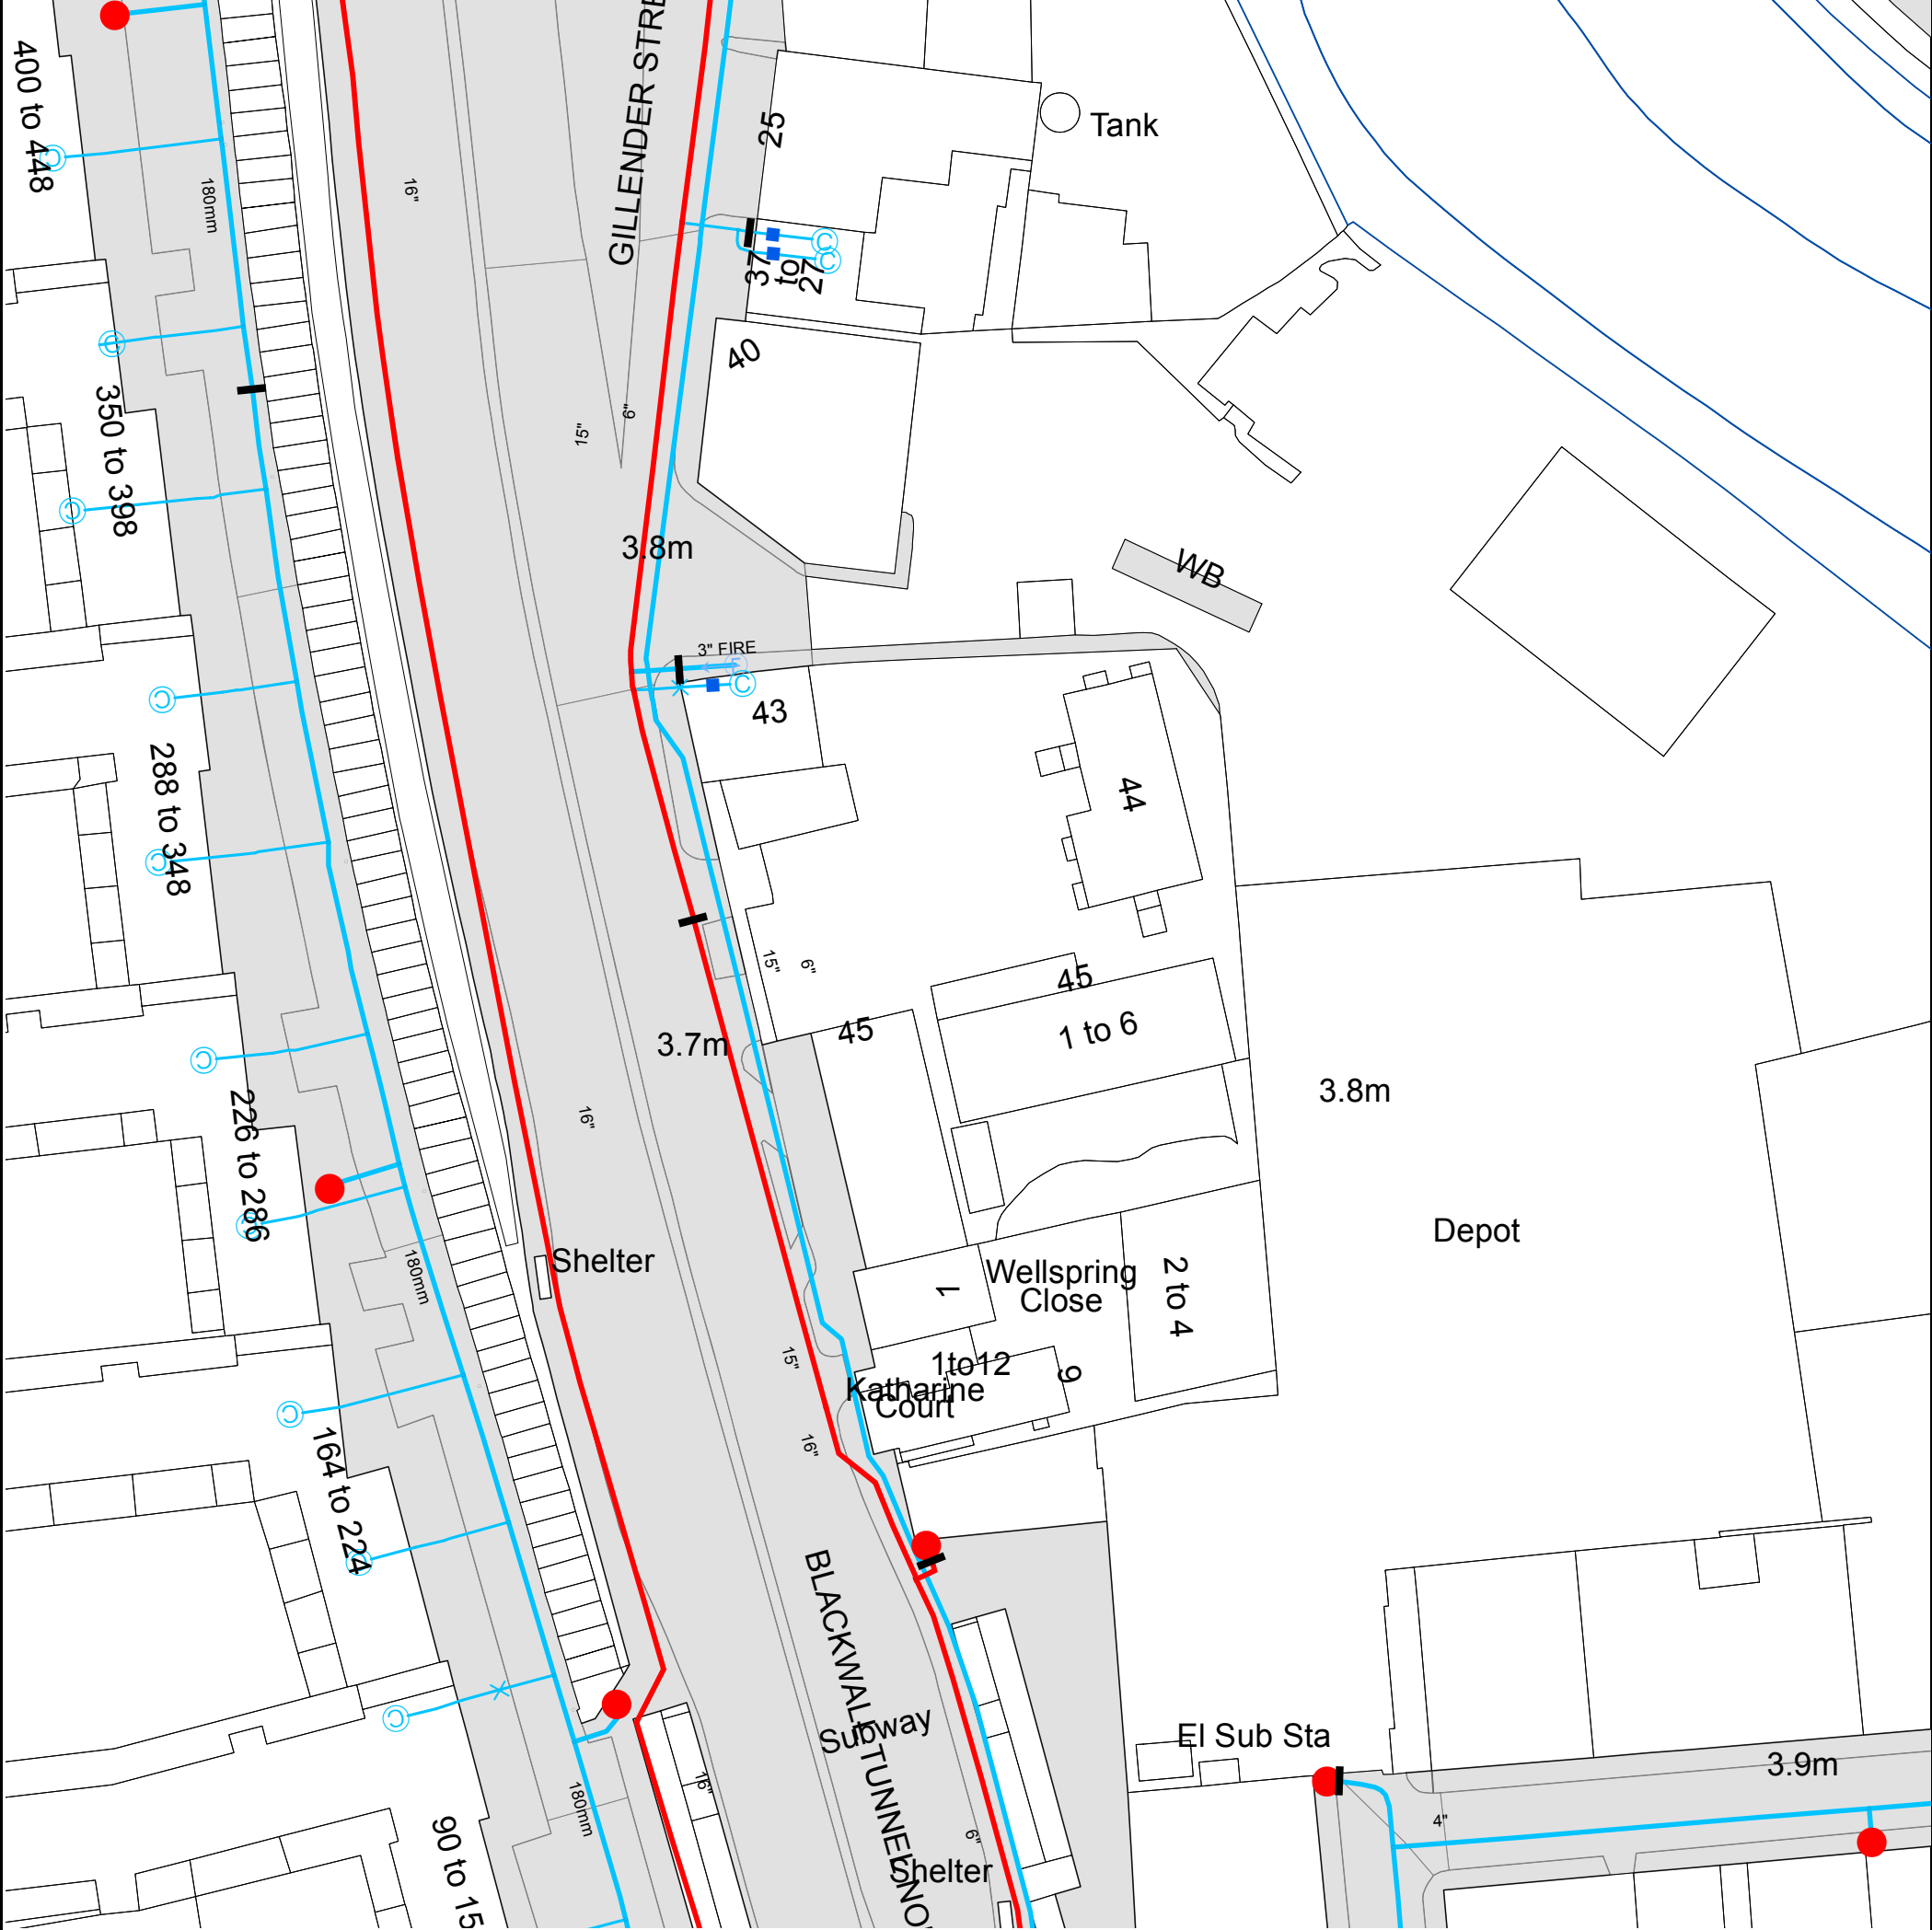

Lines denoting areas of underground surveys, etc.

	Agreement
	Operational Site
	Chamber
	Tunnel
	Conduit Bridge

## Other Sewer Types (Not Operated or Maintained by Thames Water)

	Foul Sewer		Surface Water Sewer
	Combined Sewer		Gully
	Culverted Watercourse		Proposed
			Abandoned Sewer

- 6) The text appearing alongside a sewer line indicates the internal diameter of the pipe in millimetres. Text next to a manhole indicates the manhole reference number and should not be taken as a measurement. If you are unsure about any text or symbology present on the plan, please contact a member of Property Insight on 0845 070 9148.

The width of the displayed area is 200 m and the centre of the map is located at OS coordinates 538194, 181887.

The position of the apparatus shown on this plan is given without obligation and warranty, and the accuracy cannot be guaranteed. Service pipes are not shown but their presence should be anticipated. No liability of any kind whatsoever is accepted by Thames Water for any error or omission. The actual position of mains and services must be verified and established on site before any works are undertaken.

Based on the Ordnance Survey Map with the Sanction of the controller of H.M. Stationery Office, License no. 100019345 Crown Copyright Reserved.

## ALS Water Map Key

### Water Pipes (Operated & Maintained by Thames Water)

4"	<b>Distribution Main:</b> The most common pipe shown on water maps. With few exceptions, domestic connections are only made to distribution mains.
16"	<b>Trunk Main:</b> A main carrying water from a source of supply to a treatment plant or reservoir, or from one treatment plant or reservoir to another. Also a main transferring water in bulk to smaller water mains used for supplying individual customers.
3" SUPPLY	<b>Supply Main:</b> A supply main indicates that the water main is used as a supply for a single property or group of properties.
3" FIRE	<b>Fire Main:</b> Where a pipe is used as a fire supply, the word FIRE will be displayed along the pipe.
3" METERED	<b>Metered Pipe:</b> A metered main indicates that the pipe in question supplies water for a single property or group of properties and that quantity of water passing through the pipe is metered even though there may be no meter symbol shown.
	<b>Transmission Tunnel:</b> A very large diameter water pipe. Most tunnels are buried very deep underground. These pipes are not expected to affect the structural integrity of buildings shown on the map provided.
	<b>Proposed Main:</b> A main that is still in the planning stages or in the process of being laid. More details of the proposed main and its reference number are generally included near the main.

PIPE DIAMETER	DEPTH BELOW GROUND
Up to 300mm (12")	900mm (3')
300mm - 600mm (12" - 24")	1100mm (3' 8")
600mm and bigger (24" plus)	1200mm (4')

### Valves

	General Purpose Valve
	Air Valve
	Pressure Control Valve
	Customer Valve

### Hydrants

	Single Hydrant
--	----------------

### Meters

	Meter
--	-------

### End Items

Symbol indicating what happens at the end of a water main.

	Blank Flange
	Capped End
	Emptying Pit
	Undefined End
	Manifold
	Customer Supply
	Fire Supply

### Operational Sites

### Other Water Pipes (Not Operated or Maintained by Thames Water)

	<b>Other Water Company Main:</b> Occasionally other water company water pipes may overlap the border of our clean water coverage area. These mains are denoted in purple and in most cases have the owner of the pipe displayed along them.
	<b>Private Main:</b> Indicates that the water main in question is not owned by Thames Water. These mains normally have text associated with them indicating the diameter and owner of the pipe.

## Terms and Conditions

All sales are made in accordance with Thames Water Utilities Limited (TWUL) standard terms and conditions unless previously agreed in writing.

1. All goods remain in the property of Thames Water Utilities Ltd until full payment is received.
2. Provision of service will be in accordance with all legal requirements and published TWUL policies.
3. All invoices are strictly due for payment 14 days from due date of the invoice. Any other terms must be accepted/agreed in writing prior to provision of goods or service, or will be held to be invalid.
4. Thames Water does not accept post-dated cheques-any cheques received will be processed for payment on date of receipt.
5. In case of dispute TWUL's terms and conditions shall apply.
6. Penalty interest may be invoked by TWUL in the event of unjustifiable payment delay. Interest charges will be in line with UK Statute Law 'The Late Payment of Commercial Debts (Interest) Act 1998'.
7. Interest will be charged in line with current Court Interest Charges, if legal action is taken.
8. A charge may be made at the discretion of the company for increased administration costs.

A copy of Thames Water's standard terms and conditions are available from the Commercial Billing Team (cashoperations@thameswater.co.uk).

We publish several Codes of Practice including a guaranteed standards scheme. You can obtain copies of these leaflets by calling us on 0800 316 9800

If you are unhappy with our service you can speak to your original goods or customer service provider. If you are not satisfied with the response, your complaint will be reviewed by the Customer Services Director. You can write to her at: Thames Water Utilities Ltd. PO Box 492, Swindon, SN38 8TU.

If the Goods or Services covered by this invoice falls under the regulation of the 1991 Water Industry Act, and you remain dissatisfied you can refer your complaint to Consumer Council for Water on 0121 345 1000 or write to them at Consumer Council for Water, 1st Floor, Victoria Square House, Victoria Square, Birmingham, B2 4AJ.

### Search Code

#### **IMPORTANT CONSUMER PROTECTION INFORMATION**

This search has been produced by Thames Water Property Searches, Clearwater Court, Vastern Road, Reading RG1 8DB, which is registered with the Property Codes Compliance Board (PCCB) as a subscriber to the Search Code. The PCCB independently monitors how registered search firms maintain compliance with the Code.

#### **The Search Code:**

- provides protection for homebuyers, sellers, estate agents, conveyancers and mortgage lenders who rely on the information included in property search reports undertaken by subscribers on residential and commercial property within the United Kingdom
- sets out minimum standards which firms compiling and selling search reports have to meet
- promotes the best practise and quality standards within the industry for the benefit of consumers and property professionals
- enables consumers and property professionals to have confidence in firms which subscribe to the code, their products and services.

By giving you this information, the search firm is confirming that they keep to the principles of the Code. This provides important protection for you.

#### **The Code's core principles**

Firms which subscribe to the Search Code will:

- display the Search Code logo prominently on their search reports
- act with integrity and carry out work with due skill, care and diligence
- at all times maintain adequate and appropriate insurance to protect consumers
- conduct business in an honest, fair and professional manner
- handle complaints speedily and fairly
- ensure that products and services comply with industry registration rules and standards and relevant laws
- monitor their compliance with the Code

#### **Complaints**

If you have a query or complaint about your search, you should raise it directly with the search firm, and if appropriate ask for any complaint to be considered under their formal internal complaints procedure. If you remain dissatisfied with the firm's final response, after your complaint has been formally considered, or if the firm has exceeded the response timescales, you may refer your complaint for consideration under The Property Ombudsman scheme (TPOs). The Ombudsman can award compensation of up to £5,000 to you if the Ombudsman finds that you have suffered actual loss and/or aggravation, distress or inconvenience as a result of your search provider failing to keep to the code.

**Please note that all queries or complaints regarding your search should be directed to your search provider in the first instance, not to TPOs or to the PCCB.**

#### **TPOs Contact Details**

The Property Ombudsman scheme

**PLEASE ASK YOUR SEARCH PROVIDER IF YOU WOULD LIKE A COPY OF THE SEARCH CODE**

# Pre- planning enquiry

## Application form

Please complete this form and return it to us at  
[developer.services@thameswater.co.uk](mailto:developer.services@thameswater.co.uk) or  
Thames Water, Developer Services, Clearwater Court,  
Vastern Road, Reading, RG1 8DB.

# Application for a pre-planning enquiry

Please complete ALL relevant sections of this form in BLOCK CAPITALS

Use this form to find out if there's existing capacity in our network for your proposed development. Please ensure you complete the form in full and we'll respond within 21 calendar days from receipt of your completed application form. We'll let you know if sufficient capacity already exists in the network or if further modelling will be needed to determine if network adjustments or reinforcement will be required.

Is your application for:      Water and sewerage      Water      Sewerage      (Please tick one.)

If your site will require a new main, is a budget estimate required?      Yes      No

If your site requires service connections off an existing main, while we do not offer a budget estimate service for this, you're able to estimate this yourself online at [thameswater.co.uk/newconnectioncharging](https://thameswater.co.uk/newconnectioncharging)

## Section A - About you

### (i) Details of applicant

Company name

Developer      Consultant      Land promoter      SLP      NAV      Other

Title      Mr      Mrs      Ms      Miss      Dr      Other

First name(s)

Last name

Preferred phone no.

Alternative phone no.

Email address

Full postal address      Address line 1

Address line 2

Town

County

Postcode

### (ii) Who should we contact to discuss the application?

Applicant      Nominated contact      (Please tick one.)

If nominated contact:

Company name

Developer      Consultant      Land promoter      SLP      NAV      Other

Title      Mr      Mrs      Ms      Miss      Dr      Other

First name(s)

Last name

Preferred phone no.

Alternative phone no.

Email address

Full postal address

Address line 1

Address line 2

Town

County

Postcode

## Section B - About the site

### (i) Your site address

Same as applicant

Same as nominated contact

At another location

(Please tick one.)

If another location:

Site name

Full postal address

Address line 1

Address line 2

Town

County

Postcode

Does the developer own the site?

Yes

No

Don't know

What is the local authority?

Ordnance Survey grid ref

Type of site

Greenfield

Brownfield

Mixed

How big is the site?

hectares

### (ii) Your planning status (If you've already started the planning process).

Is the development identified in the local plan?

Yes

No

Don't know

If Yes, reference number

Does it have outline planning permission?

Yes

No

Don't know

If Yes, reference number

Does it have full planning permission?

Yes

No

Don't know

If Yes, reference number

Does the development have building regulations permission?

Yes

No

Don't know

### (iii) Your development

To enable us to determine whether the capacity is sufficient or whether further modelling and reinforcement of our network will be required please provide details of the properties currently existing on the site (where applicable) and how you will phase your development. The information you provide at this stage will help improve the accuracy of our assessment. If you have more than 6 phases for your development please add details on a separate sheet.

Property type	Existing site	Proposed site						Total
		Phase 1	Phase 2	Phase 3	Phase 4	Phase 5	Phase 6	
Start on site date								
Date of Occupation								
General housing (total units)								
Flat (total units)								
Primary school (max. pupil capacity)								
Secondary school (max. pupil capacity)								
Boarding school (max. pupil capacity)								
Assembly hall (max. capacity)								
Cinema (max. capacity)								
Theatre (max. capacity)								
Sports hall (max. capacity)								
Hotel (total bedrooms)								
Guest house (total bedrooms)								
Motel (total bedrooms)								
Holiday apartment (total capacity)								
Leisure park (max. capacity)								
Caravan park standard (total spaces)								
Caravan site standard (total spaces)								
Camping site standard (total spaces)								
Camping site serviced (total spaces)								
Student accommodation (max. capacity)								
Public house (max. capacity)								
Restaurant / Day care centre (max. capacity)								
Drive in restaurant (max. capacity)								
Hospital (total beds)								
Nursing / Care home (total beds)								
Offices (gross internal area in m <sup>2</sup> )								
Shopping centre (gross internal area in m <sup>2</sup> )								
Warehouse (gross internal area in m <sup>2</sup> )								
Commercial premises (gross internal area in m <sup>2</sup> )								
Manufacturing unit (gross internal area in m <sup>2</sup> )								
Other (please state units and description)								

## Section C - About the water supply

(Not required if only applying for sewerage connection).

### (i) Phasing water supply for your development

If you already have a plan for the phasing of your development please give details below.

Property type	Phase 1	Phase 2	Phase 3	Phase 4	Phase 5	Phase 6
Date water connection required						
Estimated peak clean water flow rate (litre/sec)						
Break tank capacity, if any (m <sup>3</sup> )						

If you're using a break tank please advise what measures you plan to take to avoid high peak flow over a short period of time.

## Section D - About your sewerage connections

(Not required if only applying for water connection).

### (i) Your existing sewerage connections (brownfield site only).

Please give us details of your existing connections.

	Foul water	Surface water
Does the site have the following sewerage connections?		
What is the type of discharge method?	Gravity	Gravity
	Pumped	Pumped
If sewage is pumped, what is the pump rate?	litres/sec	litres/sec
What is the existing impermeable area per connection?		m <sup>2</sup>
What are the existing connection points? (For example, 'X' properties to TW manhole ref 'Y')		

## (ii) Your proposed sewerage connections

Please give us details of your proposed connections.

	Foul water	Surface water
Does the site have the following sewerage connections?		
What is the type of discharge method?	Gravity	Gravity
	Pumped	Pumped
If sewage is pumped, what is the pump rate?	litres/sec	litres/sec
What is your proposed approach to surface water drainage?		Sustainable drainage system (SuDS)
		Traditional piped system
Do you propose using separate highway surface water drainage systems?		Yes      No
If the surface water rate is attenuated, to what rate is it attenuated?		litres/sec
What is the proposed impermeable area per connection?		m <sup>2</sup>
What are the proposed connection points? (For example, 'X' properties to TW manhole ref 'Y')		

**Please note:** The developer is expected to follow the local authority's drainage strategy and be able to demonstrate how the proposed (attenuated) discharge rate of any surface water flows have been calculated. For developments in Greater London, please refer to the London Plan Drainage Hierarchy (Policy 5.13). We will challenge the rates provided if they are not in line with those based on the local drainage strategies.

## Section E - What next?

### (i) What we need to process your application:

**Completed application** (ensure all relevant sections of this form are completed in full)

**Site location plan** (showing the site with nearby buildings, road and any sewers)

**Scaled site layout** (showing existing and proposed layouts including Point of Connection to our water network)

**Site drainage strategy plan** (if available at this stage showing all proposed sewers, pipe sizes and gradients)

**CCTV and topographical surveys** (if available for existing brownfield sites)

Please make sure any attachments are in PDF format and don't exceed a total of 20MB in size per email. All drawings must be of suitable detail and have a drawing reference number on them.

**Please note:** without this information we may need to make assumptions about your requirements when calculating your budget estimate (if requested).

### (ii) How we'll use this information

We'll use the information you give on this application form, and potentially share it with our delivery partners, to provide the service you've requested.

This could include contacting you to discuss your application and/or provide more details, visiting the site where work needs to be carried out and invoicing you when appropriate. Your feedback is important to us, so we may also use the information to ask for your feedback on how we can improve our performance.

We won't use this information for marketing purposes without contacting you to seek your consent.

You can find Thames Water's privacy policy at [thameswater.co.uk/Legal/Privacy](https://thameswater.co.uk/Legal/Privacy).

### (iii) Declaration

**Print name**

**Job title**

**Company**

**Date**

**Signature**

### (iv) Submitting your application

Please send your completed form to receive your capacity check in 21 calendar days:

**Via email:**

[developer.services@thameswater.co.uk](mailto:developer.services@thameswater.co.uk)

**Or send to:**

Thames Water Developer Services, Clearwater Court, Vastern Road, Reading RG1 8DB

## Getting in touch

## Pre-planning enquiry: Confirmation of sufficient capacity

Dear Naomi

Thank you for providing information on your development at 43-44 Gillender Street, London comprising 22 flats together with 500 sq m of commercial premises.

We're pleased to confirm that there will be sufficient capacity in our sewerage network to serve your development, so long as your phasing follows the timescale you've suggested.

However, our catchment planners have suggested that, as the site is so close to the River Lea, you should investigate the possibility of connecting surface water from the site direct to the river. Should this not be technically feasible you will need to attenuate SW flows on site to a maximum discharge rate of 4 ls/sec.

This confirmation is valid for 12 months or for the life of any planning approval that this information is used to support, to a maximum of three years.

**You'll need to keep us informed of any changes to your design – for example, an increase in the number or density of homes. Such changes could mean there is no longer sufficient capacity.**

### What happens next?

Please make sure you submit your application for consent to make any new connections to the public sewer network, giving us at least 21 days' notice of the date you wish to make your new connection/s.

Yours sincerely

A handwritten signature in blue ink, appearing to read "Lance Cooper".

Lance Cooper

29<sup>th</sup> May 2019

## Pre-planning enquiry: Confirmation of sufficient capacity

Dear Miss. Ward

Thank you for providing information on your development Leaside Business Centre, 43-44 Gillender Street, London E146RN.

If your proposals progress in line with the details you've provided, we're pleased to confirm that there will be sufficient supply capacity to serve your development.

This confirmation is valid for 12 months or for the life of any planning approval that this information is used to support, to a maximum of three years.

**You'll need to keep us informed of any changes to your design – for example, an increase in the number or density of homes. Such changes could mean there is no longer sufficient supply capacity.**

Please note that we may contact you if we need to carry out any network modelling associated with this. The modelling would be done at our cost and within your timescales.

### What happens next?

Please make sure you submit your connection application, giving us at least 21 days' notice of the date you wish to make your new connection/s.

If you've any further questions, please contact me on 02035778757.

Yours sincerely

Marc Ashby

openreach

Thank you for your Land Enquiry.

Openreach will deploy FTTP, free of charge, into all new housing developments of 30 or more homes.

As your development is under 30 premises, Openreach can provide your development with Fibre to the Premises at a cost of £XXXXX

Alternatively, Openreach can provide your development with a standard telephone and broadband service free of charge. Broadband speeds can be confirmed by your chosen service provider.

Fibre to the Premises provides estimated speeds of up to 1Gbps enabling your home owners to stream HDTV, play computer games and write emails simultaneously providing the best communications experience.

At this time your site has not been registered, if you would like to proceed to register your site with Openreach, please use the appropriate form on our website.

Regards

The New Sites team

Plant Enquiry Ref: VM.1134750  
Your Letter Date: 03.05.2019  
Your Ref: NA  
Date: 07.05.2019

Dear Sir /Madam

Enquiry Location:

43 – 44 Gillender Street, London, E14 6RN

Thank you for your enquiry regarding work at the above location.

I enclose a copy of our above referenced drawing, marked to show the approximate position of plant owned and operated by Virgin Media.

You will be aware that you have a duty to ensure that no damage results to this equipment as a result of your proposed works. Please note that this apparatus may contain Fibre Optic, Coaxial and/or 240v Power Cables and as such, special care must be taken when excavating this area.

Should you require Virgin Media apparatus to be diverted we must agree a specification of works and provide a detailed estimate of costs. The costs are £720 (Business) or £240 (Residential) Inc VAT and the charge applies to each individual scheme requested. Both the estimate and specification will be sent to you within 25 working days of when the payment was received.

This initial payment will cover the following: -

- Detailed site visit by an experienced planning engineer.(Up to 10 hours planning time)
- Detailed specification of works.
- Detailed breakdown of costs.

Payment is required in advance for the estimated cost of detailed design work and the charge applies whether or not your works proceed. Please supply us with your payment and a copy of your plans or drawings and quote 'Our Ref' as above.

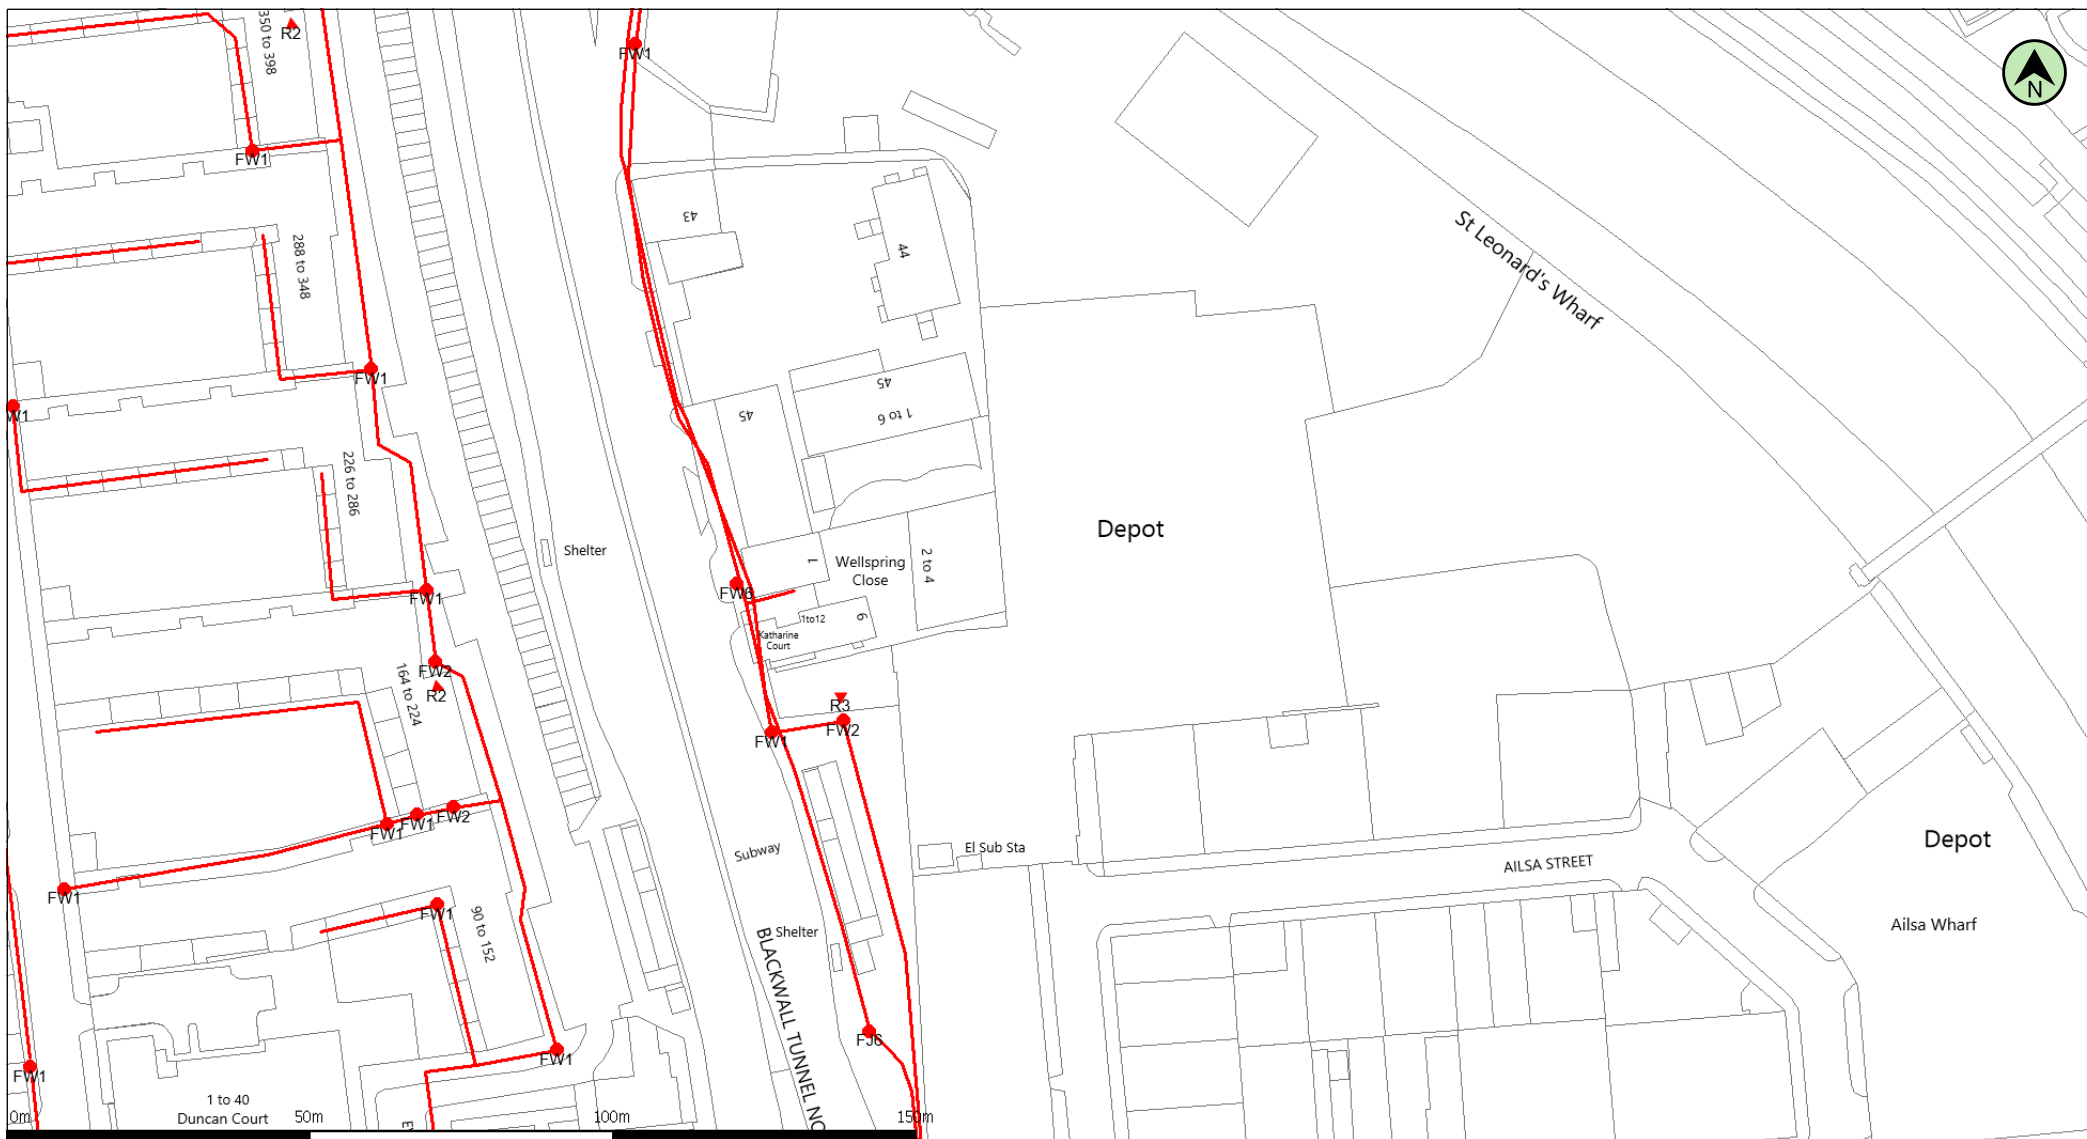

The address to send the cheque is:

Diversiory Works, Virgin Media, 1 Dove Wynd, Strathclyde Business Park Bellshill ML4 3AL

Or if you prefer to talk, please call the Diversiory Team on: 0800 408 0088 Option 1

Yours faithfully

National Plant Enquiries Team,

(c) Crown copyright and database rights 2019 Ordnance Survey 100019209      Date: 07/05/19      Scale: 1:1248      Map Centre: 538234,181851      Data updated: 01/03/19      Telecoms Plan A4

Important Information - please read The purpose of this plan is to identify Virgin Media apparatus. We have tried to make it as accurate as possible but we cannot warrant its accuracy. In addition, we caution that within Virgin Media apparatus there may be instances where mains voltage power cables have been placed inside green, rather than black ducting. Further details can be found using the "Affected Postcodes.pdf", which can be downloaded from this website. Therefore, you must not rely solely on this plan if you are carrying out any excavation or other works in the vicinity of Virgin Media apparatus. The actual position of any underground service must be verified by cable detection equipment, etc. and established on site before any mechanical plant is used. Accordingly, unless it is due to the negligence of Virgin Media, its employees or agents, Virgin Media will not have any liability for any omissions or inaccuracies in the plan or for any loss or damage caused or arising from the use of and/or any reliance on this plan. This plan is produced by Virgin Media Limited (c) Crown copyright and database rights 2019 Ordnance Survey 100019209.
